

The CTA 160i NT8B83DB-93

The CTA 160i automatically determines correct settings, eliminating the need to set dip switches.

The Norstar Computer Telephony Adapter CTA 160i is an excellent alternative for customers who prefer an internal solution and for anyone that does not have an available serial or USB port on their PC. The CTA160i package includes:

- ✓ Computer Telephony Adapter CTA 160i device
- ✓ Norstar Personal Productivity Suite
- ✓ all necessary cables
- ✓ Offers more secure installation, since it is not easily removed from the PC
- ✓ Does not require additional AC power, since it draws power off the backplane of the PC
- ✓ Has no footprint (i.e., does not require space on the desktop)

The Nortel CTA 160i is compatible with the following Nortel systems:

- 3x8 DR5.1
- 616 DR5.1
- 824 DR5, 5.1
- CICS 1.0 & higher
- MICS 1.0 & higher

The following matrix will help to select the optimal solution that is right for each user.
